Equine Cardiology: Bridging the Gap Between the Research and Clinical Practice

Message from the Guest Editors

The athlete equine heart is of great importance. In the past decade, the research community has promoted equine cardiology knowledge. Great research efforts have led to new technologies in electrophysiology, cardiac catheterization, and imaging, as well as data on cardiac performance, exercise - induced adaptations, and sudden death. With more evidence, transferring findings to clinical practice is getting harder. We need reports to break the barriers between researchers and practitioners. Also, more veterinary clinicians are interested in equine cardiology for both disease and performance. This Special Issue aims to improve understanding and spread insights so clinicians can apply research findings. Our aim for this Special Issue is to invite the equine cardiac research community to present their latest research on advanced equine cardiology, focusing on “application to practice”. Original research articles, reviews, comment papers, and case reports are highly encouraged.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

2. Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
