

Special Issue

Surgical Procedures and Postoperative Complications in Animals

Message from the Guest Editor

Surgery has made enormous progress in recent years, with increasingly more procedures displaying the benefits of using our novel and established techniques. However, we have little knowledge regarding the procedures and complications associated with individual operations. The purpose of this Special Issue is to collect papers that delve into the details of surgical procedures and complications related to each operation. In this way, it will be possible to discover a new perspective in relation to procedures, demonstrating the benefits—with regards to reduced complications—or the real-world problems encountered in the medical / surgical management of specific cases. For this reason, this Special Issue will be a perfect handbook for surgeons who will want to learn about the benefits and risks of a surgical technique, improving their knowledge and increasing their awareness in case management.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
2. Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
