

# Special Issue

## Companion Animal Therigenology

### Message from the Guest Editors

This Special Issue will cover studies regarding breeding efficiency, physiological and pathological processes in reproduction, contraception, pregnancy and parturition, advanced reproductive technologies, including diagnostic, therapeutic, surgical and anaesthetic techniques, andrology, diseases of the reproductive system of the female and the male, diseases of the mammary gland, new insights on therapeutics, and infertility of the companion animals. Studies relevant to the development of reproductive technologies, including in vitro oocyte maturation, in vitro fertilization, and embryo culture, are included in the scope of this Special Issue. Papers on the control of infectious diseases will receive particular attention.

### Guest Editors

Dr. Pagona G. Gouletsou

Faculty of Veterinary Medicine, School of Health Sciences, University of Thessaly, Karditsa, Greece

Dr. Marianna S. Barbagianni

Faculty of Veterinary Medicine, School of Health Sciences, University of Thessaly, Karditsa, Greece

### Deadline for manuscript submissions

28 February 2026
