Animal Pain Management: Insights Across Companion, Farm, and Laboratory Animals

Message from the Guest Editors

Pain is a negative and unpleasant experience, and can be associated with the presence of tissue damage. In veterinary medicine, its management is complicated by the inability of animals to communicate their suffering as humans do. Scientific research is constantly advancing, allowing ways to better understand the main pathogenic mechanisms of pain. There is a search for new and valid diagnostic tools, as well as effective therapies that guarantee good efficacy with few side effects, in different animal species. Based on this background, our goal is to present the most recent and innovative research conducted in veterinary medicine, with the aim of expanding knowledge in the field of pain management.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Curtin University Sustainable Policy (CUSP) Institute, Curtin University, Kent St., Bentley, Western Australia 6102, Australia
2. Former Foundation Professor of Animal Welfare, University of Queensland and Foundation Director, Centre for Animal Welfare and Ethics, University of Queensland, Brisbane, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
