Animal Poisoning Related to Pathology and Toxicology

Message from the Guest Editors

Animal poisoning related to pathology and toxicology is a complex field that investigates the etiology, pathogenesis, and consequences of toxic substances in various animal species. It encompasses the study of toxic agents, their interactions with biological systems, and pathological changes in animals' cells and tissues. Recent research shows that poisoning is one of the most significant health problems globally. Incidents of poisoning have diverse etiologies, resulting from the ingestion, inhalation, contact, or injection of various drugs, chemicals, poisons, toxins, or gases. Thus, understanding animal poisoning is crucial for early diagnosis, the development of therapeutic measures, antidotes, and effective strategies for preventing poisoning incidents.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Curtin University Sustainable Policy (CUSP) Institute, Curtin University, Kent St., Bentley, Western Australia 6102, Australia
2. Former Foundation Professor of Animal Welfare, University of Queensland and Foundation Director, Centre for Animal Welfare and Ethics, University of Queensland, Brisbane, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
