

# Special Issue

## Ruminant Health: Management, Challenges, and Veterinary Solutions

### Message from the Guest Editor

We are pleased to invite you to contribute to this Special Issue, which focuses on health management and veterinary medicine development in ruminants. The field is crucial due to its direct impact on animal health, productivity, and overall farm profitability. Advances in health management practices and veterinary interventions are essential to address the challenges posed by diseases, nutritional deficiencies, and other health-related issues in ruminant populations. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: Health management strategies; Disease prevention and control; Antimicrobial use and resistance; Nutrition and health; Reproductive health; Welfare practices. We encourage submissions in the form of original research articles, reviews, communications, commentaries, and case reports. These contributions will help advance our understanding of ruminant health and veterinary medicine, promoting the development of more effective and sustainable practices. I look forward to receiving your contributions.

### Guest Editor

Dr. Dimitrios Gougoulis

Clinic of Medicine, Faculty of Veterinary Medicine, School of Health Sciences, University of Thessaly, Trikalon 224, 43100 Karditsa, Greece

### Deadline for manuscript submissions

22 August 2025
