Nutraceuticals and Complementary Feeds in Veterinary Medicine and Reproduction

Message from the Guest Editors

Dietary supplementation with nutraceuticals including herbs, fruits, vegetables, and vitamins has been used since ancient times to improve human and animal health by providing the optimal levels of nutrients according to the specific needs of body systems. Since the 1980s, dietary interventions have become a pillar in the multimodal management of health conditions in domestic animals. The present Special Issue addresses the most recent research on nutraceuticals in all aspects of veterinary medicine. We warmly welcome the contribution of original research papers, review articles, and short communications concerning the use of nutraceuticals and complementary feeds to manage medical conditions as well as to improve performance and reproductive efficiency both in small and large domestic animal species. Additional topics regarding the discovery of target conditions that could benefit from dietary supplementation are also welcome.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Curtin University Sustainable Policy (CUSP) Institute, Curtin University, Kent St., Bentley, Western Australia 6102, Australia
 2. Former Foundation Professor of Animal Welfare, University of Queensland and Foundation Director, Centre for Animal Welfare and Ethics, University of Queensland, Brisbane, Australia
