

# Special Issue

## Viral Infections in Poultry

### Message from the Guest Editors

New-emerging and re-emerging poultry viruses continue to threaten the health of chickens and result in great economic losses to the world's poultry industry. In addition, there are poultry viruses causing public health troubles to humans, such as high pathogenic avian influenza virus. The purpose of this Special Issue "*Viral Infections in Poultry*" is to collect publications on the epidemiology, pathogenesis, detection methods, vaccine development, virus-host interaction, and antiviral compound of poultry viruses. Though many impressive achievements have been made in recent years, there are still many unknowns. Here, we welcome submissions of studies on poultry viruses. The aim of this special issue is to provide a platform for researchers to communicate and learn from each other. Researchers are invited to submit both original research articles and reviews.

### Guest Editors

Prof. Dr. Xiaorong Zhang

College of Veterinary Medicine, Yangzhou University, Yangzhou, China

Dr. Chunchun Meng

Shanghai Veterinary Research Institute, Chinese Academy of Agricultural Sciences, Beijing, China

### Deadline for manuscript submissions

closed (20 July 2023)

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

#### Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
