Innovations in Equine Surgery: Laparoscopy and Beyond

Message from the Guest Editors

The Special Issue, *Innovations in Equine Surgery:*Laparoscopy and Beyond, will focus on recent advances that are transforming surgical practice in horses, emphasizing minimally invasive approaches and novel technologies. Its scope encompasses not only laparoscopic and thoracoscopic techniques, but also, hopefully, emerging image-guided, robotic, and preventative surgical methods that may expand the possibilities for prevention, diagnosis, treatment, and recovery.
