

Special Issue

Welfare Issues of "Fashionable" Dogs and Cats Breeding

Message from the Guest Editors

We are pleased to announce a Special Issue of the journal *Animals*, which will explore the welfare issues of “fashionable” dogs and cats breeding. The designer dog breeds can be considered as fashionable breeds. With such selection decisions often heavily based on aesthetics, health can be detrimentally affected.

We encourage the submission of original manuscripts and reviews that identify welfare issues facing fashionable breeds. In this Special Issue, research areas may include the following: Welfare-relevant aspects of selection;

Animal welfare (including acquisition motivations and practices, husbandry and training);

Welfare assessment within the human-animal relationship;

Human–animal interactions (including human interpretation of behaviour, portrayal of animals in the media);

Animal behaviour (including breed-related behaviour, cognitive abilities, conspecific interactions);

Animal health (including epidemiological and disease-specific studies, and breed-related diseases).

We look forward to receiving your contributions.

Guest Editors

Dr. Greta Veronica Berteselli

Dr. Susana Le Brech

Dr. Simona Cannas

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips
