

Special Issue

Zoonotic Protozoa: Epidemiology and Host Interactions

Message from the Guest Editors

Livestock is an important source of income for various people around the world. At the same time, environmental fragmentation has brought many wild animals closer to human environments, and our relationship with domestic species has also evolved towards greater proximity and contact. Close contact between animals and people facilitates the transmission of zoonotic diseases, especially in locations where the Sustainable Development Goals (SDGs) are yet to be met. The infections transmitted by zoonotic protozoa represent a significant percentage of infectious diseases, yet they are currently under research.

This Special Edition aims to unveil and deepen knowledge about zoonotic protozoa and their impact on animal and human health, in a One Health approach. Original research articles and reviews are welcome. Research and knowledge areas may include (but are not limited to) different aspects of the epidemiology of zoonotic protozoa related to domestic, wild, and production animals, analyzed under the umbrella of One Health, transversally exploring areas still little studied and misunderstood. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Curtin University Sustainable Policy (CUSP) Institute, Curtin University, Kent St., Bentley, Western Australia 6102, Australia
2. Former Foundation Professor of Animal Welfare, University of Queensland and Foundation Director, Centre for Animal Welfare and Ethics, University of Queensland, Brisbane, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
