Special Issue

Equine Physiotherapy and Functional Recovery: Advances in Diagnostics and Therapeutic Approaches

Message from the Guest Editors

Physiotherapy and functional recovery have become essential components of equine healthcare, enabling the transition from injury to rehabilitation and then return to performance. As equine athletes are increasingly required to perform at high physical and mental levels. the demand for evidence-based diagnostic and therapeutic approaches continues to grow. Scientific progress in these areas is providing new insights into how we can optimize recovery, improve welfare, and prevent the recurrence of musculoskeletal disorders. We welcome contributions exploring novel diagnostic tools, therapeutic methods supporting functional recovery, and interdisciplinary approaches integrating veterinary medicine, physiotherapy, and biomechanics. Studies on both sport and working horses, as well as those addressing welfare in different management contexts, are particularly encouraged. By promoting the exchange of scientific knowledge and practical experience, this Special Issue will enhance the standards of equine physiotherapy, contributing to improved health, welfare, and sustainable athletic performance in horses.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. Animals adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. Animals is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
 Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
