Special Issue

Advances in Internal Medicine in Equids

Message from the Guest Editors

This Special Issue is dedicated to the most recent and cutting-edge research on internal medicine in equids (horses, donkeys, and mules). We understand that this topic is notoriously broad, and clinicians (as well as researchers) can feel overwhelmed by the quantity of information and the variety of sources. Moreover, the incessant advancement in diagnostic and therapeutic tools in internal medicine, the discovery of new conditions affecting equids, and the spread of exotic diseases to new locations compel us to be constantly updated. We hope to provide a meeting point for researchers, gathering the most recent and relevant scientific results on internal medicine and specifically focusing on findings with clinical relevance. This Special Issue will collect not only manuscripts on general internal medicine applied to equids (immunology, pharmacology, nutrition, critical care, epidemiology, and evidence-based medicine), but also results of interest to any specialty of internal medicine in these species (cardiology, neurology, endocrinology, dermatology, neonatology, theriogenology, sport medicine, etc.). Both reviews and original articles are welcome.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. Animals adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. Animals is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
 Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
