

Special Issue

Reproductive Diseases in Ruminants

Message from the Guest Editor

I am glad to invite you to contribute to this Special Issue of *Animals* entitled 'Reproductive Diseases in Ruminants'. Reproductive efficiency underpins ruminant livestock production, impacting the sustainability and profitability of dairy, beef, and small ruminant systems globally. However, reproductive diseases remain largely uncontrolled. The main reason is likely that these multifactorial diseases, caused by infectious agents, are also affected by factors like nutritional imbalances, environmental stress, and genetic predispositions, highlighting the difficulty of managing and preventing them. For this issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: the discovery of new species, emerging threats, advances in diagnostic tools, immunology and pathology studies, diagnostic techniques, novel vaccines, alternative treatments, innovations in preventive strategies, host/pathogen interaction, epidemiological studies, risk factors, and economic impacts.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
