

## Special Issue

# Diagnosis and Prevention of Endemic Diseases in Ruminants

### Message from the Guest Editors

The "traditional" role of ruminants is to provide meat, milk, fibers, and pelts. Because farming lands are considerably reduced, in addition to water and energy also becoming increasingly limited, production requires a substantial increase in efficiency and sustainability. In this scenario, the diagnosis and prevention of endemic disease in small and large ruminants are the keys to ensuring animal welfare and health, as well as sustainable livestock production and public health protection related to the consumption of animal products. In this context, the Special Issue will focus on new technologies developed for diagnoses, epidemiological studies, disease control, and prevention activities in ruminants. Original research, short communications, narrative reviews, meta-analyses, and systematic reviews are encouraged. There is no limit to the size of research, which could be significant on local, regional, country, or world scales.

## About the Journal

### Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

#### Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
