

# Special Issue

## Equine Internal Medicine

### Message from the Guest Editors

Equine internal medicine plays a pivotal role in contemporary veterinary practice, addressing a wide array of health concerns in horses. In today's specialized veterinary landscape, equine internal medicine stands as a cornerstone, focusing on intricate aspects of horse physiology and pathology. By spotlighting these areas, this Special Issue not only advances the field of equine internal medicine but also contributes significantly to the well-being and longevity of horses, emphasizing the ongoing importance of specialized veterinary care in the equine world. This Special Issue aims to underscore the significance of equine internal medicine by presenting original research and comprehensive reviews on cutting-edge topics. Covering areas like neonatology, cardiology, intensive care, respiratory problems, and gastrointestinal issues, this Special Issue delves into critical facets of equine health.
