

## Special Issue

# Animal Vectors of Emerging Disease—Latest Insights into Epidemiology and Ecology

### Message from the Guest Editors

Ongoing global climate change creates conditions in previously unaffected areas, mostly located in the northern hemisphere, that are becoming more suitable for the emergence and transmission of climate-sensitive infectious diseases like malaria, chikungunya, West Nile virus, Crimean–Congo haemorrhagic fever or Lyme disease. This creates challenges for vector-borne infectious disease prevention, monitoring, and control. We invite pioneering researchers, seasoned experts, and passionate scholars to submit their papers to this the critical and timely Special Issue, titled “Animal Vectors of Emerging Disease—Latest Insights into Epidemiology and Ecology”. We welcome original research, reviews, and insightful analyses that explore a wide range of subjects like novel animal vectors and their roles in disease emergence, tracking and controlling animal vectors, ecological dynamics influencing pathogen transmission, case studies on outbreaks and successful intervention strategies, and technological advancements in monitoring and preventing animal vector-transmitted diseases.

### Guest Editors

Dr. Leonor Camacho-Sillero

Programa de Vigilancia Epidemiológica de la Fauna Silvestre (PVE),  
Consejería de Sostenibilidad, Medio Ambiente y Economía Azul, Junta  
de Andalucía, 29002 Málaga, Spain

Dr. Jaco Bakker

Animal Science Department, Biomedical Primate Research Centre,  
Lange Kleiweg 161, 2288 GJ Rijswijk, The Netherlands

### Deadline for manuscript submissions

30 November 2025

## About the Journal

### Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

---

### Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
2. Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

#### Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
