Special Issue

Contaminated Environments: The Effects of Toxic Waste on Animal Health and Conservation

Message from the Guest Editor

The rising prevalence of environmental contamination due to toxic waste poses significant threats to biodiversity and ecosystem health. Pollutants from industrial, agricultural, and municipal sources permeate environmental systems, profoundly affecting wildlife health and survival. Understanding these impacts is essential for developing mitigation strategies and safeguarding vulnerable ecosystems. Toxic waste impacts animals through direct exposure and bioaccumulation within food chains, manifesting as endocrine disruption, immune suppression, reproductive failure, and disease susceptibility. Pollutants also contribute to habitat degradation and altered species interactions. This Special Issue aims to present advancements in understanding contamination effects on animal health and conservation. Through innovative research, we strive to support biodiversity preservation and sustainable environmental management. We invite high-quality submissions examining contamination impacts on animal health and ecosystems.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. Animals adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. Animals is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
 Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
