Special Issue

Advances in Veterinary Ocular Pathology

Message from the Guest Editors

We invite original research papers that address improvements in clinical and investigational veterinary ocular pathology. Veterinary ophthalmic pathology is undergoing a transformation. Currently, it is a broader specialty incorporating molecular biology and gene testing, granting us novel insight and the ability to provide more accurate diagnoses, prognoses, and, ultimately, targeted therapy. The topics of this Special Issue involve all aspects of veterinary ophthalmology: preclinical and clinical research, and the diagnosis and treatment of various ocular disorders. We welcome publications on new findings concerning pathogenesis, genetic analysis, advances in molecular pathology, immunohistochemistry, and digital imaging. The purpose of this Special Issue is to present high-quality documents focused on the ocular pathology of various species. Our goal is to encourage scientists to publish their experimental and theoretical research in as much detail as possible.

Guest Editors

Dr. Dagmara Winiarczyk

Department and Clinic of Animal Internal Diseases, Faculty of Veterinary Medicine, University of Life Sciences, 20-612 Lublin, Poland

Prof. Dr. Łukasz Adaszek

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. Animals adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. Animals is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
 Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
