

Special Issue

Behavior of Shelter Animals

Message from the Guest Editor

Each year animal shelters receive, care for, and rehome dogs, cats, and other animals. Even under the best of circumstances, however, shelters can be challenging environments for the animals that enter them. Often, animals are housed in close proximity in unfamiliar locations, sometimes with limited space and, typically, high noise levels. Additionally, shelter animals interact with many unfamiliar people and experience a lack of predictability and control in their daily lives. Some animals enter shelters with behavioral problems while others may develop or display problematic behaviors in the shelter. This Special Issue, Behavior of Shelter Animals, will focus on the behavior of animals while they are in shelter environments. The goal is to provide information that will inform shelter programs and policies. We invite original research articles, critical reviews, and commentaries on topics such as efforts to reduce stress during sheltering, responses to enrichment, behavioral evaluations, individual differences in behavior, and behavioral issues such as resource guarding. Articles on dogs, cats, and other animals housed in shelters are welcome.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Curtin University Sustainable Policy (CUSP) Institute, Curtin University, Kent St., Bentley, WA 6102, Australia

2. Former Foundation Professor of Animal Welfare, University of Queensland and Foundation Director, Centre for Animal Welfare and Ethics, University of Queensland, Brisbane, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
