## **Special Issue**

# Biomarkers in Animal Health and Disease

#### Message from the Guest Editors

The identification and quantification of biomarkers are important for the evaluation of animal physiological and clinical responses. Biomarkers should be obtained, whenever possible, from easily accessible, preferably noninvasive, or minimally invasive body fluids. This Special Issue aims to bring together high-quality research, highlighting the importance of the use of biomarkers in animal health and disease. Potential topics include but are not limited to the following: the characterization, applications, and validation of biomarkers; intake biomarkers and dietary preferences; stress biomarkers; prognostic biomarkers in cancer; toxicity biomarkers; biomarkers of inflammation; fertilityassociated biomarkers; and acute and chronic disease biomarkers in companion animals. Preference will be given to works related to the study of biomarkers in farm and companion animals, as well as in wild and laboratory/model animals, which address issues related to their biology.

### **About the Journal**

#### Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. Animals adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. Animals is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

#### Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
 Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

#### **Author Benefits**

#### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

#### **Journal Rank:**

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
