Cognition, Emotion, and Personality in Pigs—Implications in Welfare Issues

Message from the Guest Editors

Somewhere in the Middle East, 9000 to 10,000 years B.C., humans and pigs began to interact and cooperate. Our relationship with this fascinating animal has greatly varied over time. The pig became a pariah species where it was first domesticated, whereas it underwent intensive breeding in other countries. Even there, most people associate pigs with dirtiness, thus allowing to treat this animal as a thing. This commodification of a sensitive living being is, nowadays, unbearable. One of the ways to make people more conscious about animals is certainly to make them aware of their sensitivity, emotions, and cognition. Our understanding of the pig's world—the pig's way to detect, understand, and classify it—and sophisticated social life has dramatically improved over the last 25 years. The goal of this Special Issue is to merge all recent research in the abovementioned fields so to effectively present lesser-known features of pigs and make a significant contribution to support the improvement of pigs' breeding conditions and thus of their welfare.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
2. Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
