

Special Issue

Ecology and Conservation of Crocodiles

Message from the Guest Editors

Crocodylian biology is a difficult yet important field of study and is gaining increased recognition in terms of contemporary threats, conservation and conflict management. In order to maintain a pace of scientific progress consistent with that of anthropogenic degradation, we must consolidate perspectives, relevant data and integrative ideas to develop a forward-thinking approach to crocodylian conservation. In this Special Issue, we invite contributions that investigate crocodylian population, reproductive or behavioral ecology, diversification or trait evolution, physiology or ecotoxicology, or large-scale population-specific demography that allow for the integration of data across study systems. Editorial-style perspectives are also welcome. This Special Issue is designed to collate information regarding the current progress in crocodylian biology in an effort to integrate knowledge and provide collaborative approaches to crocodylian conservation and management.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Curtin University Sustainable Policy (CUSP) Institute, Curtin University, Kent St., Bentley, Western Australia 6102, Australia
 2. Former Foundation Professor of Animal Welfare, University of Queensland and Foundation Director, Centre for Animal Welfare and Ethics, University of Queensland, Brisbane, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
