Stomatology of Companion Animals—Second Edition

Message from the Guest Editor

Dentistry is one of the most rapidly developing fields of veterinary medicine. Many companion animals suffer from oral diseases. With the development of medicine as well as diagnosis and treatment techniques, we can improve the lives of animals suffering from malocclusions, stomatitis, tumours and tumour-like lesions, and most importantly try to prevent them. Additionally, the oral cavity condition affects other organs and systems, mostly cardiovascular and respiratory, and it is essential to determine new correlations between them. It is my pleasure to invite you to submit original research, review papers, case series, unique case reports and short communications focused on oral cavity surgery, oral disease prevention, oral cavity tumours and novel treatment techniques. In this Special Issue on “Stomatology of Companion Animals—Second Edition”, new insights in the stomatology of companion animals will be presented. This Special Issue will expand our current knowledge on the veterinary stomatology proceeding new information in a joint effort of veterinary clinicians and pathologists. I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Curtin University Sustainable Policy (CUSP) Institute, Curtin University, Kent St., Bentley, Western Australia 6102, Australia
2. Former Foundation Professor of Animal Welfare, University of Queensland and Foundation Director, Centre for Animal Welfare and Ethics, University of Queensland, Brisbane, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
