Advances in Small Animal Gastrointestinal and Hepatic Diseases

Message from the Guest Editors

Gastrointestinal diseases are receiving increased attention in veterinary research due to their rising prevalence. In recent years, novel tools—such as fecal microbiota transplantation (FMT)—have emerged as promising options for managing chronic enteropathies in dogs and cats. The intestinal microbiota plays a key role in disease pathogenesis, and its modulation has opened new perspectives. The gastrointestinal tract is now increasingly recognized as a central organ that interacts with the liver and other systems through mechanisms such as the gut-liver axis. These interactions influence disease progression and expression. We invite you to contribute to this Special Issue, which could advance our understanding of gastrointestinal and hepatobiliary disorders in companion animals. Original articles and reviews are welcome. Research areas may include (but are not limited to): chronic enteropathies, hepatic diseases, gut-liver axis, microbiome-based therapies, inflammatory markers, pancreatitis, feline inflammatory disease vs lymphoma, and novel diagnostic or treatment strategies. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Curtin University Sustainable Policy (CUSP) Institute, Curtin University, Kent St., Bentley, Western Australia 6102, Australia
 2. Former Foundation Professor of Animal Welfare, University of Queensland and Foundation Director, Centre for Animal Welfare and Ethics, University of Queensland, Brisbane, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
