

Special Issue

Innovative and Sustainable Ingredients for Redefining Aquaculture Feeds

Message from the Guest Editors

Aquaculture is the fastest growing food production industry today, with an outstanding contribution to one of the greatest global challenges. This fact makes the current reliance of the aquaculture industry on feeds produced from wild-caught fish unsustainable.

Therefore, and despite the important efforts focused on finding and testing alternative ingredients able to reduce the dependency on regular ingredients carried out, developing sustainable and nutritious aquafeeds still remains one of the greatest challenges in aquaculture.

In this regard, the aim of this Special Issue is to publish high-quality papers concerning innovative and sustainable ingredients able to not only supply an adequate nutritional value, but also be available at industrial scale, as well as economically affordable.

Therefore, we invite the submission of recent findings, in the form of original research articles or reviews, on fish nutrition oriented toward improving growth and general status of the animals as well as recent findings about biotechnological treatment focus to improve their nutrient quality and bioavailability that allow the optimization of feed and raw materials.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
2. Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
