Special Issue

Conservation and Restoration of Aquatic Animal Habitats

Message from the Guest Editors

Humans use land areas for cities, agriculture, and industries, exploiting biological and water resources in aquatic areas. Aquatic ecosystems are greatly affected by humans. Our activities place heavy burdens on rivers. lakes, and oceans, the accumulation of which will cause an Anthropocene mass extinction. We hereby launch a Special Issue in the journal *Animals* entitled "Conservation and Restoration of Aquatic Animal Habitats", and call for research papers on related cutting-edge strategies, including Al-assisted design/prediction and case reports on activities conducted locally or globally. Case reports are welcome not only with successful results but especially those with negative results. The lessons learned from those negative results will help further technical developments. We hope this issue will contribute broadly to progress and knowledge sharing in the conservation and restoration of aquatic animal habitats

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. Animals adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. Animals is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
 Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
