

## Special Issue

# Animals and Responsible Research and Innovation: From the Lab to the Meat Production Unit

### Message from the Guest Editors

This Special Issue aspires to bridge food and animal studies, and food science and technology with critical policy studies and science and technology studies (STS) by focusing on responsible research and innovation (RRI) processes in food production and provision, food technology, and food biotechnology. RRI has been a strong emerging trend in the field of science and technology policy as well as in innovation studies. The aim of this Special Issue is fourfold: A: to explore the role of scientific hubris in shaping greedy and irresponsible patterns of food research and modes of production; B: to study the role of material and expertise politics of animal husbandry, as well as traditional and indigenous knowledges in shaping food systems; C: to provide a normative understanding and contribute to the critical policy studies of food research and production by addressing the importance of value-ladenness of technoscientific configurations in relation to animal research and animal-based food production; D: to explore meat replacement markets and technology and the normative bases of these innovations.

---

### Guest Editors

Dr. Aristidis S. Veskoukis  
Dr. Sophia Efstathiou  
Dr. Stathis Arapostathis

## About the Journal

### Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

#### Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary )
