Special Issue

Imaging Techniques and Radiation Therapy in Veterinary Medicine

Message from the Guest Editors

We are glad to present you this new *Animals* Special Issue on Imaging Techniques and Radiation Therapy in Veterinary Medicine. Imaging techniques play a fundamental role in daily practice to achieve a final diagnosis in companion animals and proper treatment plans. All the available imaging techniques provide specific information, and it is important to choose the proper technique to confirm or exclude the suspected diagnosis. This Special Issue of *Animals* aims to collect new advances in Veterinary Imaging Techniques and Radiation Therapy, facilitating a deeper understanding of specific imaging techniques and more effective treatments for companion animals.
