

## Special Issue

# Tumors in Companion Animals: Detection, Diagnosis, Prognosis and Treatment

### Message from the Guest Editors

Tumors in companion animals represent a growing clinical and research concern, requiring multidisciplinary collaboration across diagnostic pathology, oncology, and surgery. This Special Issue aims to present recent advances in the detection, diagnosis, prognosis, and treatment of neoplastic diseases in dogs, cats, and other companion species. We invite original research articles, reviews, and case reports focusing on innovative diagnostic tools, imaging and molecular techniques, prognostic markers, and therapeutic approaches, including surgical, chemotherapeutic, and immunomodulatory interventions. Studies addressing treatment outcomes, survival analysis, and translational perspectives linking veterinary and human oncology are particularly encouraged. By integrating diagnostic innovations with clinical and therapeutic evidence, this Special Issue seeks to enrich the current literature and provide a practical and scientific reference for veterinarians, researchers, and clinicians dedicated to improving cancer management and quality of life in companion animals.

### Guest Editors

Prof. Dr. Sang-Ik Park

Department of Veterinary Pathology, College of Veterinary Medicine and BK21 FOUR Program, Chonnam National University, Gwangju 61186, Republic of Korea

Dr. Seung-Hyun Kim

KSH Surgical Animal Medical Center, Gwangju 61617, Republic of Korea

### Deadline for manuscript submissions

31 December 2026

## About the Journal

### Message from the Editor-in-Chief

*Animals* is an international, peer-reviewed, open-access journal established in 2011 and published semimonthly online by MDPI. The journal is dedicated to high-quality research across a broad range of animal-related disciplines, including zoology and veterinary sciences, and upholds rigorous peer-review and editorial standards to ensure the publication of impactful work. Indexed in the Science Citation Index Expanded (SCIE) within Web of Science, *Animals* has a 2025 Impact Factor of 3.2 (ranks 13/87 (Q1) in 'Agriculture, Dairy & Animal Science'; 15/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.5.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

#### Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
