Special Issue

Positive Aspects of Animal Welfare

Message from the Guest Editor

The interest in animal welfare has been greatly used to assess animal welfare. Most indicators focus on negative aspects, and only a few indicators are available to highlight positive aspects. To guarantee high standards, animals should experience positive conditions, that allow them to live a life that is really worth living. For these reasons, the new frontiers should aim to reach the high-quality life, and research should focus on the development and validation of positive welfare indicators. Original research papers addressing positive aspects of animal welfare, both in farm, companion animals and in zoo animals, are welcome. Topics are the development and validation of new positive welfare indicators, the testing and refinement of existing indicators, the assessment of reliability and feasibility, and the development of new assessment protocols focusing on positive aspects. Additionally, special interest will be given to interdisciplinary approaches, such as the inclusion of neurosciences and recent technical advances that may open up new perspectives.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. Animals adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. Animals is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
 Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
