

Topical Collection

Poultry Nutrition and Metabolism

Message from the Collection Editors

The aim of this Topical Collection is to publish high-quality papers related to poultry nutrition and metabolism as well as the interrelations between nutrition, metabolism, microbiota, and poultry health. Thus, we invite you to submit your recent findings to this Topical Collection as original research or review articles on poultry nutrition and metabolism regarding, but not limited to: the effect of feeding on poultry meat and egg quality; nutrient requirements of poultry; the use of functional feed additives to improve gut health and immune status; microbiota; nutraceuticals; soybean meal replacers as alternative sources of protein for poultry; the environmental impacts of feeding poultry; the use of feed/food by-products in poultry diet; feed technology; and poultry organic productions.
