

## Special Issue

# Recent Advances in Fish and Shellfish Immunology

### Message from the Guest Editors

A Special Issue on the topic of “Fish and Shellfish Immunology” is being launched by the *Animals* journal. Fish and shellfish are in continuous contact with a wide variety of non-pathogenic and pathogenic microbes present in the aquatic environment, developing mechanisms to guarantee their survival. Therefore, the understanding of fish and shellfish immune system structure, function and response is essential for the development of new technologies to improve their productivity in the aquaculture industry. This Special Issue aims to gather new research, advances and applied topics in the field of immunology of fish and shellfish with a relevant economic impact in the aquaculture sector. This compilation will be composed of, but is not limited to, issues relating to comparative, neuroendocrine, evolutive, and nutritional immunology, including immune-related molecules, pattern recognition receptors, immune cells, mucosa-associated lymphoid tissues (MALTs), host–pathogen interactions, vaccines, immune regulation, etc., will be welcome.

### Guest Editors

Dr. Francisco A. Guardiola

Immunobiology for Aquaculture Group, Department of Cell Biology and Histology, Faculty of Biology, University of Murcia, 30100 Murcia, Spain

Dr. Carlos Angulo

Immunology and Vaccinology Group, Centro de Investigaciones Biológicas del Noroeste, Instituto Politécnico Nacional 195, Playa Palo de Santa Rita Sur, La Paz 23096, BCS, Mexico

### Deadline for manuscript submissions

closed (30 June 2022)

## About the Journal

### Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

#### Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
