Impacts of Natural and Man-Made Disasters on Wildlife: Planning, Protection and Outcomes

Message from the Guest Editor

The Australian bushfires of 2019-20 razed huge tracts of land, killed more than 30 people, and destroyed some 6000 homes. It has also been conservatively estimated that 1 billion native animals were lost including threatened and iconic species, with this figure excluding invertebrates.

Given the predicted increase in frequency and severity of extreme weather events and natural hazards due to climate change, and Environmental pollution is becoming more and more serious, a more integrated multi-disciplinary approach is urgently needed.

The aim of this Special Edition is to help bridge this gap by building on the existing animals in emergencies' literature, but with a strong collaborative focus. We welcome manuscripts from multidisciplinary fields including veterinary science, conservation biology, human psychology, and occupational health and safety. We especially invite researchers, clinicians, emergency managers and others who Engaged in animal protection, behavioral research to submit their learnings from the field.

Guest Editor

Dr. Jennifer Hood

1. Adjunct Senior Lecturer, School of Veterinary & Life Sciences, Murdoch University, Western Australia, Australia
2. Veterinary Director Animals Australia, Melbourne, Victoria, Australia

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
2. Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
