Probiotic Effects in Fish and Crustaceans

Message from the Guest Editor

Bacillus species have a long history related to the production of fermented foods and beverages, mainly due to the health benefits they cause in animals and humans. In recent years, it has been determined that fermented products improve the health status and growth parameters of organisms since they increase food digestibility, inhibit pathogens development, stimulate immune system, control intestinal microbiota and modulate animal and humans metabolism. In this Special Issue, we are inviting you to share with us the positive effects induced by Bacillus species in fish and crustaceans, without excluding other animals.

Guest Editor

Dr. Jorge Olmos-Soto

Department of Marine Biotechnology, Centro de Investigación Científica y de Educación Superior de Ensenada, Ensenada, Baja California, Mexico

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Curtin University Sustainable Policy (CUSP) Institute, Curtin University, Kent St., Bentley, Western Australia 6102, Australia
2. Former Foundation Professor of Animal Welfare, University of Queensland and Foundation Director, Centre for Animal Welfare and Ethics, University of Queensland, Brisbane, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
