Special Issue

The Use of Animals in Animal Experimentation

Message from the Guest Editors

This Special Issue aims to address several topics, including:

- When is it necessary to use experimentation animals in veterinary medicine research?
- Are there reliable alternatives to the use of experimental animals? How valid are they?
- Importance of the care and handling of experimental animals: could they affect the experimental results?
- Importance of the 3Rs (reduction, replacement, and refinement) in animal experimentation.
- Statistical models for reliable results with the least number of animals. The importance of the R program.
- Is legislation on animal experimentation similar in all countries? How can this affect the repeatability and reliability of the studies?
- Which animal species are the most suitable for each specific study: nutrition, veterinary vaccines, therapeutics, etc.? This item includes not only rodents but also other animal species (ruminants, pigs, dogs, or cats, among others).
- Welfare of experimental animals: behavior, environmental enrichment. New studies or methods. Its importance in stress reduction.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. Animals adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. Animals is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
 Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
