Naturally Occurring Canine Lower Urinary Tract Neoplasia

Message from the Guest Editors

Urothelial carcinoma is the most common neoplastic condition of the urinary tract of dogs. Despite its relative prevalence, the prognosis remains poor due to the highly aggressive nature of this disease both locally and systemically, and many aspects of this cancer pose unique treatment challenges. In addition, naturally occurring invasive canine urothelial carcinoma serves as an important spontaneous large animal model for this disease in humans, which also carries a poor prognosis. Because of the high disease prevalence, poor outcomes, and important translational potential, research advancements in the field of canine lower urinary tract neoplasia need to be explored. This has prompted the journal *Animals* to call for a Special Issue entitled “Naturally Occurring Canine Lower Urinary Tract Neoplasia”.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
2. Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
