

Special Issue

Birds Ecology: Monitoring of Bird Health and Populations, Volume II

Message from the Guest Editor

This second Special Issue of *Animals*, entitled “Birds Ecology: Monitoring of Bird Health and Populations, Volume II”, invites you to explore the results of studies, especially those looking for links between changing environmental conditions and bird 'health', the course of physiological and immunological functions, the course of the disease, and studies related to bird population monitoring. We invite papers on bird fitness and bird population health, as well as review articles summarizing knowledge in this area. We also welcome the submission of papers on bird population monitoring.
