Women's Special Issue Series: Animals Behaviour and Welfare

Message from the Guest Editors

This Special Issue, hosted by women editors, is devoted to scientific research in the field of Animal Behaviour and Welfare carried out by female scientists. We cordially invite female scientists to present their research on this topic. Subjects may range from farm and companion animals to wild and laboratory animals of all different species, and may focus on animal behaviour, effects, the impact of housing and husbandry, coping styles and animal welfare assessments. Original research papers and review articles where the lead authors or all authors are women are welcome. This Special Issue is aiming to put female researchers in the spotlight in this well-known peer-reviewed journal. Nevertheless, we welcome submissions from all authors, irrespective of gender identity.
