

Special Issue

New Nutrition Strategies: Prenatal and Postnatal Growth in Livestock Animals

Message from the Guest Editors

This Special Issue aims to inform the scientific community of recent research on the advances and innovations related to improving the efficiency of growth and nutrient utilization in animals, from the embryonic state to birth and finalization, with the aim of obtaining a greater quantity and quality of products of animal origin. We invite you to send original manuscripts or reviews in fields related to the main topic of this Special Issue. Research areas may include (but are not limited to) the following:

- Animal nutrition.
- Growth physiology.
- Nutrition and embryonic development.
- Diets and ruminal microbiology.
- Diets and nutrient absorption.
- Growth stimulants.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips
