

Special Issue

Novel Epidemiological Tools for Disease Control and Prevention in Food Animals

Message from the Guest Editor

We would like to invite you to contribute a paper to be included in the Special Issue “Novel Epidemiological Tools for Disease Control and Prevention in Food Animals”. This Special Issue will focus on novel epidemiological tools to rapidly identify, contain, and predict diseases in food animals. We aim to find applicable tools to improve the economy; reduce contamination and waste; reduce the spread of disease between animals, humans and the environment; and enhance animal welfare. The issue will build from the existing literature to enhance the applicability of methods in the field. We hope that you accept this offer and help us build a Special Issue that will enhance animal production and welfare. Your valuable contribution will be deeply appreciated.

Guest Editor

Dr. Laura Huber

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Curtin University Sustainable Policy (CUSP) Institute, Curtin University, Kent St., Bentley, Western Australia 6102, Australia
2. Former Foundation Professor of Animal Welfare, University of Queensland and Foundation Director, Centre for Animal Welfare and Ethics, University of Queensland, Brisbane, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
