Small Ruminants and Rural Resilience

Message from the Guest Editor

Small ruminants have the potential to promote and support rural livelihoods and gender equity, but there are relatively few recent scientific publications related directly to this subject. Much of the current research is of clear applicability in highly capitalised and intensive systems, but its possible relevance in other contexts is often unclear. Scientific insights are needed to identify and mitigate the constraints on sustainable household or village levels, or peri-urban production, with special reference to their resilience under climate warming, and social, economic and policy challenges. Reviews and original papers are invited that either (a) enable the current or future constraints on these small-scale systems to be identified, or (b) report on the developments in livestock production science that are of clear potential benefit to the resilience of these systems. Papers that combine both these approaches will be particularly welcome.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Curtin University Sustainable Policy (CUSP) Institute, Curtin University, Kent St., Bentley, Western Australia 6102, Australia
 2. Former Foundation Professor of Animal Welfare, University of Queensland and Foundation Director, Centre for Animal Welfare and Ethics, University of Queensland, Brisbane, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
