Special Issue

Advances in Animal Anatomy

Message from the Guest Editors

We aim to publish papers that improve our understanding of applied veterinary anatomy: 1- Applied anatomy of domestic animals (mammals and birds), which facilitates the use of different approaches and the recognition of structures in diagnostic imaging or which helps in the comprehension of animal physiology. 2- Anatomy of wild animals, which could be very helpful to specialized veterinarians, researchers, and technicians to maintain the welfare of animals in zoos and wildlife recovery centers. 3- Anatomy of new companion animals, focused on the less well-known species that are being introduced into homes and require veterinary assistance, mainly because they are not adapted to life in captivity. Additionally, apart from anatomical knowledge, the preservation of dissected specimens or their viscera is essential for the following: 1- Teaching in faculties/schools of veterinary medicine, as well as exhibiting specimens in anatomical museums, to avoid long and meticulous dissections and to reuse dissected specimens as much as possible. 2- The study of the anatomy of the new companion animals, of which there are few specimens available for studying.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips
1. Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
2. Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:
JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
