Current Contribution to the Research Based on Animal Tissue and Cellular Models

Message from the Guest Editors

Data from animal (livestock) trials are intricate and influenced by environmental factors, as well as by individual animal biology. Often, the straightforward interpretation of the results is hardly possible. Thus, simplified biological systems have become an inherent component of animal experimental research..

The manuscripts addressing, but not limited to the following topics are welcome:

Investigating molecular mechanisms of biological interactions in the organism using in vitro models (e.g., microbiome–host interactions, environmental impact, secretory functions in tissues)

Role of tissue microenvironments in development (e.g., germplasm maturation, epigenetic impact, and programming)

Studies based on organ and cell models, including new cell cultures and cell lines, mini organoids, organs on-chip, and microfluidic culture systems and cellular techniques and molecular analyses adapted to livestock research: visualization techniques, omic analyses

Guest Editors

Dr. Katarzyna Stadnicka

Faculty of Animal Breeding and Biology, UTP University of Science and Technology in Bydgoszcz, Bydgoszcz, Poland

Dr. Luiz Cordeiro

Cell Interactions and Fertility team, PRC, INRAE, Nouzilly, France

Deadline for manuscript submissions

closed (31 January 2022)

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
2. Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
