Recent Advances in Companion Animals Neutering

Message from the Guest Editors

Sterilization of small animals is always a very pertinent topic. In recent years, new methods are being explored to improve surgical neutering and analgesic and anaesthesiologic procedures in order to achieve and preserve animal wellbeing, in accordance with European directives. Modern veterinary science has becoming more focused on improving these techniques, applying new procedures for the controlling of pain, using minimally invasive techniques. We would like to ask you to participate in a Special Issue entitled “Recent Advances in Companion Animals Neutering”. The aim is to collect in one Special Issue the results of your recent research and studies, particularly using better procedures that can minimize surgical pain and discomfort, and, thus, optimize the procedures in the obstetrics, gynaecology, and andrology fields. We encourage you to share all information useful about any advances that can lead to improvements in companion animal's castration.

Guest Editors

Prof. Dr. Giovanni Michele Lacalandra

Prof. Dr. Giulio Guido Aiudi

Dr. Vincenzo Cicirelli

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
