

Special Issue

Felid Welfare—Behavior, Reproduction, and Abnormal Behavior

Message from the Guest Editors

Felids in captivity face numerous situations that may result in welfare and/or reproductive problems related to thwarting of natural behavior, social structure, and natural home rage. These welfare problems can be expressed as different abnormal and detrimental behaviors as well as unsuccessful breeding or caring for young. Socialization to humans of wild felids in captivity effects both conservation and welfare as well as the possibility to preserve natural behaviors. In domestic cats, insufficient socialization and the relation with humans is connected to several welfare issues, such as fear and stress. The aim of the current Special issue is to publish papers elaborating these problems both in wild species of cats kept in zoos and domestic cats kept in private homes and rescue centers. With this Special Issue, our goal is also to help researchers in the field to identify similarities and differences in welfare problems between felid species. For this Special Issue, we invite you to contribute with your latest findings through literature reviews, empirical research papers, short communications, or discussion papers.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

1. Curtin University Sustainable Policy (CUSP) Institute, Curtin University, Kent St., Bentley, Western Australia 6102, Australia
2. Former Foundation Professor of Animal Welfare, University of Queensland and Foundation Director, Centre for Animal Welfare and Ethics, University of Queensland, Brisbane, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
