Special Issue

Fish Pathology

Message from the Guest Editors

Diseases are increasingly recognized as a constraint on aquaculture and fisheries' productivity, causing economic loss through mortalities and reduced commercial species' growth and/or meat quality. Clinical observation, morphopathological characterization, diagnosis, and pathogenesis studies of diseases are critical to decipher the pathological puzzle and devise successful disease prevention strategies. The aim of this Special Issue is to present state-of-theart research and future directions on the pathology of diseases in wild and cultured fish. We encourage the submission of original research (basic and applied) or review papers from different areas, such as diseases caused by biotic and abiotic factors, new and emerging diseases, nutritional disorders, as well as experimental studies enhancing understanding of the pathogenetic mechanisms of specific processes or the host immune response. You are cordially invited to contribute on this theme or related research topics in order to improve the knowledge on diseases in fish.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. Animals adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. Animals is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
 Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
