

## Special Issue

# Genome-Wide Associations for Growth Traits in Livestock Species

### Message from the Guest Editors

This Special Issue focuses on gathering a compendium of genome-wide association studies (GWAS) related to growth traits in livestock. Growth traits are very important for production and are the first to be selected in many species. They show moderate-to-high heritability and potential for genetic gain. GWAS results show that growth traits follow the infinitesimal model, with a few genes making small contributions to expression. However, the main associated regions vary according to the species, trait, breed, population and methodologies applied. Thus, this Special Issue aims to shed light on these not fully understood questions in order to further our understanding of the biological expression of growth traits and to evaluate them.

### Guest Editors

Prof. Dr. Gregório Miguel Ferreira De Camargo

Departamento de Zootecnia, Escola de Medicina Veterinária e Zootecnia, Universidade Federal da Bahia (UFBA) - 500, Av. Milton Santos, Ondina, Salvador 40170110, BA, Brazil

Prof. Dr. Raphael Bernal Costa

Departamento de Medicina Veterinária Preventiva e Produção Animal, Escola de Medicina Veterinária e Zootecnia, Universidade Federal da Bahia (UFBA) - 500, Av. Milton Santos, Ondina, Salvador 40170110, BA, Brazil

### Deadline for manuscript submissions

closed (20 February 2023)

## About the Journal

### Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

#### Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary )
