

## Special Issue

# Advances and Challenges in Tackling Livestock Methane Production

### Message from the Guest Editors

Livestock production sustainability is presently imperative. Among the different environmental impacts, global warming is considered the most dangerous, and methane emission from animals and slurries plays a significant role. Different nutritional and feeding techniques, as well as appropriate management of slurries, can be adopted to reduce methane emission. However, milk and meat production must not be hampered, given the increasing demand for food of animal origin worldwide. Hence, the challenge is to maintain milk and meat yield with a reduction in methane emission. Scientists are invited to provide contributions on the matter, for different animal species and livestock production systems.

### Guest Editors

Prof. Dr. Matteo Crovetto

Department of Agricultural and Environmental Sciences, Università degli Studi di Milano, Milan, Italy

Dr. Byeng Ryel Min

Department of Agricultural and Environmental Sciences, Tuskegee University, Tuskegee, AL, USA

### Deadline for manuscript submissions

closed (31 December 2022)

## About the Journal

### Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

#### Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
