

# Special Issue

## Mineral Nutrition and Metabolism in Fish

### Message from the Guest Editors

Mineral nutrition has been and is still a challenging area within fish nutrition research. We are in the middle of an era where interest in mineral research on fish is on the rise. Sound research backed by the rapid dissemination of new knowledge is essential to retain and expand this interest. This Special Issue aims to put together high-quality original research and review papers in fish mineral nutrition and metabolism (both finfish and shellfish). The topics of interest for this Special Issue include but are not limited to mineral requirement, novel ingredients and antinutrients, dietary mineral sources and availability; and functional role of minerals in improving fish health, stress response, broodstock performance, and welfare in aquaculture. Fundamental or mechanistic studies on mineral absorption, transport, or metabolism at whole animal, tissue or cellular level, including in vitro models, are welcomed. Communications linking minerals to fish rearing systems, effluents, and their environmental impact will also be considered for this special issue.

### Guest Editors

**Dr. Antony Prabhu**

Fish Nutrition, Requirement and Welfare Research Group, Institute of Marine Research, 5817 Bergen, Norway

**Dr. Johan W. Schrama**

Aquaculture and Fisheries Group, Wageningen University and Research, 6708 WD Wageningen, The Netherlands

### Deadline for manuscript submissions

closed (1 August 2021)

## About the Journal

### Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

#### Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
